# WE ARE HIRING!

# **Sales Manager**

### Job Description:-

Position	: Sales Manger for Chemical / Food grade Sodium/
	Potassium/ Ammonium Phosphates.
Experience	: Min. 4 years in Sales of similar products.
Salary	: Commensurate with Experience & Achievements .
Location	: Indore M.P.

### Submit your CV :

# **CHEMICAL MARKET**

A MONTHLY MAGAZINE DEVOTED TO THE DYES, CHEMICALS, PHARMACEUTICALS, TRADE & INDUSTRY SINCE 1982

## Growth Drivers in the Chemical Industry

Chemicals industry in India is highly diversified, covering more than 80,000 commercial products. It is broadly classified into Bulk chemicals, Specialty chemicals, Agrochemicals, Petrochemicals, Polymers and Fertilizers. India's proximity to the Middle East, the world's source of petrochemicals feedstock, makes for economies of scale.

India is a strong global dye supplier, accounting for approximately 16% of the world production of dyestuff and dye intermediates. Chemicals industry in India has been de-licensed except for few hazardous chemicals. Upcoming Petroleum, Chemicals and Petrochemicals Investment Regions (PCPIRs) and Plastic parks will provide state-of-the-art infrastructure for Chemicals and Petrochemicals sector.

- The production of Total Major Chemicals and Petrochemicals in 2022-23 (up to Sept 2022) is 26570 thousand MT.

- CAGR in the production of Total Chemicals and Petrochemicals during the period 2017-18 to 2021-22 is 4.61%.

- India ranks 11th in the World Exports of Chemicals (excluding pharmaceutical products) and ranks 6th in the World Imports of Chemicals (excluding pharmaceutical products).

-FDI in Chemicals sector (excluding fertilizers) is \$21.71 (Apr 2000 to Sept 2023)

- Indian chemical industry employs more than 2 Mn people.

- The production of Major Chemicals in 2023-24 (up to Aug 2023) is 53.54 Lakh Tonnes.

- The combined exports of Major Chemicals and Major Petrochemicals in the year in 2023-24 (Apr 2023- Aug 2023) has decreased to INR 44.09 Thousand Cr from INR 59.86 Thousand Cr over the corresponding period of last year (Apr 2022-Aug 2022).

100% FDI is allowed under the automatic route in the chemicals sector (except in the case of certain hazardous chemicals).

# According to Invest India, the following are the key points for growth drivers:

- There has been an uptrend in the rising disposable income, median age of population, urbanisation and growing penetration and demand from rural markets.

-The shift in production and consumption towards Asian and Southeast Asian countries in all sectors is leading to increasing demand for the chemicals and petrochemicals.

-There has been a constant shift in consumer preferences towards a healthier lifestyle and environment-friendly products like the electric vehicles and power generation including solar, wind and hydro power.

- The Production Linked Incentives (PLI) schemes for manufacturing of Advance Cell Chemistry Battery has been in the forefront under the Atmanirbhar Bharat Abhiyan.

#### The market size of Chemicals & Petrochemicals sector in India is around \$215BN and is expected to grow to \$300 Bn by 2025. The following are the key points to consider:

- Exports of Chemicals and Chemical products (excluding pharmaceutical products and fertilizers) contributed 11.7% of total export in the year 2021-22 compared to 12.9% in the year 2020-21. It contributed 10.8% of total export in the year 2022-23 (up to Sept 2022).

- CAGR in Export of total Chemicals and Chemical products (excluding pharmaceutical & fertilizer products) during the period 2017-18 to 2021-22 was 13.86% while CAGR of total national export was 12.62%.

- The compounded average growth rate(CAGR) during the period 2017-18 to 2021-22 was 4.4% for manufactured product based on WPI while it was 4.4% for Chemicals and Chemical Products.

- The Index of Industrial Production of Chemical & Chemical products achieved record to 137.2 in Jul, 2022 as against the lowest value of 109.1 recorded in May 2021.

- The quantum of production of Major Chemicals decreased to 53.54 Lakh Tonnes during 2023-24 (up to Aug 2023) as compared to 54.32 Lakh Tonnes during the corresponding period of the previous year.

- The quantum of production of certain Petrochemicals such as Synthetic Detergent

- Intermediates was 34.07 Lakh Tonnes in 2023-24 (up to Aug 2023)

- Production of Organic Chemicals has increased (Up to Aug 2023) as compared to the corresponding period of the previous year, recording an increase of 4.52%.

- The quantum of production of Major Petrochemicals increased (up to Aug 2023) compared to corresponding period of previous year recording an increase of 6.08%.

# **EVENTS AND CONFERENCES**

### **44TH DYE+CHEM BRAZIL INTERNATIONAL EXPO**

Date: July 10-12, 2024
City: Centro De Eventos PRO MAGNO, São Paulo, Brazil
Country: Brazil

**Description:** CEMS-Global USA's International 'Dye+Chem series of Exhibitions has reached its accession in popularity in South & South-East Asia as the only kind of series held in the sub-continent. Being organized for more than a decade in Bangladesh, India & Sri Lanka; 'CEMS-Global' is pleased to take this leading Series of Exhibition to Brazil and present the Brazilian edition - '44th Dye+Chem Brazil 2024 International Expo' to be held on similar successful model concurrently with '5th Brazil Apparel Sourcing Show 2024', 'Textech Brazil' and '5th Brazil Int'l Yarn & Fabric Sourcing Show 2024', focused to the colossal manufacturing Industry of Brazil. Brazil - is one of the 'BRICS' economies and recently overtook the UK as the world's sixth-largest economy. Its economy is the largest of the Latin American nations and the second largest in the western hemisphere. Brazil is one of the fastest-growing major economies in the world. In future decades, Brazil is expected to become one of the five largest economies in the world. Brazil's place as a leader among the world's emerging economies was first brought to widespread prominence with its inclusion as one of the BRIC countries - the tag is given a decade ago to Brazil, Russia, India, and China because of their robust economic growth and tremendous market opportunity. In recent years, Brazil has fulfilled its promise and remains one of the world's top prospects for business development and investment. Brazil continues to enjoy steady economic growth and has the second biggest industrial sector in the Americas. The country's annual per capita GDP is US\$ 12,000, almost doubled in the past two decades. Manufacturing sector dominates the Brazilian economy, contributing 67% and 30% of GDP, respectively. Brazil has steered a careful path to reach a position of global economic and industrial power. All these facts made CEMS-Global take its popular 'Dye+Chem Series of Exhibition' to Brazil.

# **CPHI CHINA - VIRTUAL CPHI**

Date: June 19-21, 2024
City: Shanghai New International Expo Center
Country: China
Website https://www.enhi.com/ching/on/home.htm

**Description:** This year's event saw the return of international attendees for the first-time post covid and was a huge success as we hosted thousands of pharma professionals from across the entire pharma supply chain in Shanghai. Excited for the next edition?

### **COATINGS FOR AFRICA**

Date: June 19-21, 2024
City: Sandton Convention Centre Johannesburg
Country: South Africa
Website: https://www.coatinasforafrica.com/

**Description:** WHaving a strong track record of achievements, Coatings For Africa stands as the biggest specialised coatings event in Africa. Thanks to its association with the Oil and Colour Chemists' Association (OCCA) and South African Paint Manufacturing Association (SAPMA), it brings together raw material and service suppliers, equipment providers and paint manufacturers. Over a three-day period, this trade exhibition, in conjunction with the Business Presentations Hub, provides a platform for valuable business interactions and networking within the coatings industry. The event offers an ideal setting for
