AAHAN CHEMIEX LLP

Anal Patel

M : [+91-98254 50803](tel:+91-9825450803)

We are Manufacturing Textile, Paper and Home Cleaning Products

TEXTILE CHEMICALS

- Dye Fixing Agent • T R Oil • Antifoam Agent • Wetting Agent
- Optical Whitening Agent • Mercerizing Agent • Leveling Agent
- Soaping Agent • Silicone Emulsion • Anti Dusting Agent • Calsonil Oil

HOME CLEANING PRODUCTS

- Liquid Detergent • Hand Wash • Dish Wash • Toilet Cleaner
- Glass Cleaner • All Purpose Cleaner • Car Polish
- Tyre Polish • Car Shampoo

PAPER CHEMICAL

- Silicone Defoamer • Non Silicone Defoamer • Sizing Chemical

We are Manufacturing Concentrate Dish Wash, Liquid Detergent, Hand Wash, Floor Cleaner, White & Black Phenyle. You Will Be Dilute it 4 To 20 Times as per Product.

KRUNAL CHEMICAL

Dealers & Stockist in Chemicals & Solvents

We are manufacturer of :

- Ammonium Aluminium Sulphate
- Potassium Aluminium Sulphate / Potash Alum
- Sodium Aluminate
- Alum - Lumps & Powder

We are Supplier of :

- Barium Hydroxide
- Barium Sulphate
- Potassium Meta Bi Sulphite
- Sodium Meta Bi Sulphite (Thailand & India Make)
- Sodium Hydroxide Lye
- Ammonium Chloride - By Product and Pure
- Potassium Chloride (KCL) By Product and Pure
- Copper magnesium Dioxide - By Product
- Copper Ash - By Product

HIND ELASTOMERS PVT. LTD.

STARMAG MAGNESIUM OXIDE (JAPAN)

- 'STARMAG' is light burned and reactive Magnesium Oxide of high Purity, Isolated from Seawater with Chemical Process.
- 'STARMAG' 150 is High Activity, 'STARMAG' M is Medium Activity, 'STARMAG' L is low activity grade.
- Each grade has Special Characteristics such as good Dispersability and Workability for various Polymers.
- 'STARMAG' CX150 is Coated so it shows Superior Affinity, Dispersability and Workability for various Polymers.

MAIN USES

Halogenated Elastomer	Magnesia Cement	Friction material
Dyes	Plastics	Catalysts
Refractory	Curing agent for phenolic resin	Absorbents
Food Additive & Animal Feed	Thickening agent for SMC / BMC	Grind Stones
Additive	Glass	Electrical Steel
Pharma	Ceramics	

AUTHORISED IMPORTER & STOCKIST

CHEMICAL MARKET

A MONTHLY MAGAZINE DEVOTED TO THE DYES, CHEMICALS, PHARMACEUTICALS, TRADE & INDUSTRY SINCE 1982

How the Automobile Electric Vehicles (Evs) are Revolutionizing the Economies at Scale

The latest buzz word is that Tesla is entering the Indian Markets. There is a lot of excitement to see Elon Musk visiting India in April 2024. The markets for fully electric vehicles is expanding at a rapid pace. There are naysayers in the industry which are controlled by hedge funds to control the rapid growth of the electric vehicle market because it will affect them as they are heavily invested and controlling the oil market but at the same time, the growth at which the EVs are being adopted is at an all-time high. The worldwide market size for EV was around USD 384.65 B in 2022 and is expected to be around USD 1.5T by 2030. PM Modi has also announced that the vehicles in India will be transitioned to EVs to reduce the dependence on oil imported from around the world! Accordingly, China remains the biggest EV market followed by Europe and then by North America, however with the speed at which the EV marketing in expanding in India may increase its market share of EV adoption. This not only will make EV manufacturers grow but it will also help

- The energy market as more renewable energy will be used to charge the batteries that power the vehicles which in turn will also help increase the solar, wind and hydro power stations
- The solvents and electrolytes that are needed to make these batteries.
- The component manufacturers create components specially designed for EVs
- Create more jobs for component designers and engineers
- Create more jobs for semiconductor industry to design chips for the EVs
- Create more jobs for the software industry to remotely manage charging stations and IOT industry to create sensors to record data and its analysis.
- Recycling of the battery materials is in itself a big incentive which also involves a lot of chemicals to separate out the different materials after the battery has been used for defined recharging cycles.

Generating electricity is not a difficult task, however storing

the generated electricity will need massive infrastructure to manufacturer these batteries.

The chemical industry will be at the forefront of all of this because the solvents, electrolytes and metals like Lithium, Cobalt, Nickel, Manganese, Lead, Zinc, Manganese and nonmetals like Graphite will be required to manufacturer large scale industrial size batteries and at the same time, car batteries to store this electricity to power the car. Just imaging a simple electric remote controlled toy car which are there in the market are charged by pencil cell batteries. This toy car has been expanded to a real world car which will run on the same principles but with more sophistication and technology including drive terrain, chemistry to store the energy and components to create the cars.

The governments are also working very hard to reduce dependency on the imports of oil and revolutionize the way we commute. More nuclear power plants will be needed and initially more coal will be needed to power these nuclear plants. The cost of replacing coal with other sources have been historically high but as more renewal energy will be generated and stored in industrial size batteries the coal can be replaced or reduced with the use of Natural Gas and/or Renewable Energy sources which includes solar, wind, hydro, biomass. There does exist concerns related to nuclear waste disposal, safety and proliferation risks but with technological advancement these issues will hopefully get ironed out.

The companies that are working on battery chemicals include Aether Industries, AMI Organics, Tatva Chintan, Himadri Chemicals, Toray Industries, Mitsubishi Chemicals, Hitach Chemicals, Contemporary Amperex Technology Co Limited (CATL) to name a few.

Note : If you do not get our magazine online or on whatsapp for continuous 2 months, please inform us at the earliest, so necessary action can be taken. We will not be able to do anything if, after a year, you let us know that you are not receiving our magazine.

FREE SERVICES TO SUBSCRIBERS

Subscribers may send their enquiries for purchase of chemicals, machinery raw materials, technical know-how and employment related (jobs) to be published free of charge in Chemical Market magazine.

You can also post your purchase and sales enquiries on our website at www.chemicalmarket.net

All Enquiries are free except BOX NUMBER ENQUIRIES. They will be charged Rs. 500/- per insertion to be paid in advance along with enquiry. Box Number means that the enquiries will be made to us to our postal address and/or our email address and thus hiding your identity for business purposes.

Contact: info@chemicalmarket.net or visit us at www.chemicalmarket.net
